CONFORM, HOLSBYBRUNN SWEDEN

**SCANDINAVIAN CRAFTSMANSHIP SINCE 1978**

#### **A FEW WORDS ABOUT CONFORM**

*Sweden has a long tradition of furniture manufacturing. Our began in the small village of Holsbybrunn back in 1978, guided by an ambition to prove that function and comfort need not to compromise with design.*

*For us Scandinavian craftsmanship is in focus. Clean lines meeting timeless shapes, high quality and comfort. We offer a wide range of armchairs in a lot of materials and functions. Developed in cooperation with architects and designers, with each individual model always consisting of equal levels of comfort and design.*

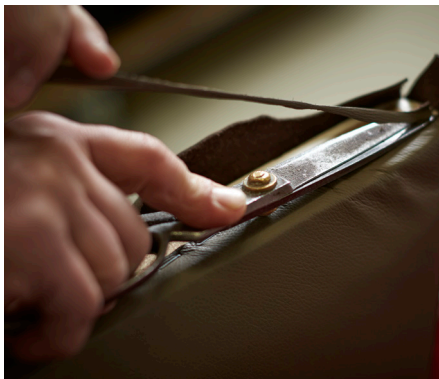

No armchair from Conform is like the other as long as you do not order two alike. All models can be varied and customized to suit your personal taste and preferences. But also to make it work in environments where demands from architects, interior designers and clients are high.

## **FREEDOM OF CHOICE** TO SUIT YOUR PERSONAL TASTE

---

To us, a new armchair is much more than beautiful shapes and lines. We add function and movement, new materials and technical solutions. The close cooperation with external designers is a stimulating process, often concentrated to our prototype workshop. We give and take and spur each other on. Although every model is unique they have one thing in common. Comfort and shape are equally important.

– We never compromise on that!

We are proud chair makers at Conform, fully focused on creating beautiful furniture, meant to be loyal companions in your life. Not only pampering the eye but also a body in motion.

## **CRAFTMANSHIP** THE DIFFERENCE IS IN OUR HANDS

---

We focus on the manufacturing of armchairs and footstools. High specialization has created a rational but yet handcrafted production. Human hands grind, upholster and assemble. Eyes inspect. Hands examine that everything reaches the right level of quality. Here people take responsibility, never machines.

#### **A FEW WORDS ABOUT LEATHER**

*We work primarily with three various grades. The qualities of the leather differ a bit, just like your needs and preferences.*

**Standard** *a corrected, coverdyed and grained leather where most of the natural irregularities generally are removed. The quality is very resistant to stains and dirt and is easy to keep clean.*

**Semi-aniline** *Soft and dyed leather with a light coating, which contains a small amount of colour pigment applied to the surface. Some natural irregularities and marks may be present. The leather offers good comfort and breathes well.*

**Aniline-leather** *Our finest and most natural looking leather with a light surface coating and coloured only with dye. A very soft and smooth leather that, when treated properly, patinas beautifully with age. It requires some extra care, as the surface is open. A unique skin for a unique piece of furniture.*

#### **A FEW WORDS ABOUT SHEEPSKIN**

*Our sheepskins are delivered from some of the best sheep farmers in Australia and only from sheep of the species Crossbred, guaranteeing high quality.*

*The skin is curly by nature, but the structure may vary both in terms of curls and shade.*

#### **COLOUR SAMPLES**

*Two skins/leathers are never identical. Our colour samples are only an indication. The skins/leathers are prepared and dyed according to our high standards of environmental and animal husbandry.*

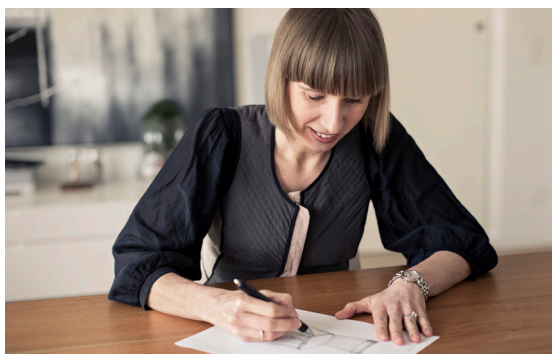

# OUR DESIGNERS FORM OUR VISIONS

Our close cooperation with external designers is crucial in order to keep the design vivid and make us competitive.

LENKA TEILMANN

**Lenka Teilmann**

*Designer, Denmark.*

*"Design should be following timeless style showing handcrafted details.*

*The design should be contemporary but also reaching a wide audience."*

JAHN AAMODT

**Jahn Aamodt**

*Designer, Norway.*

*"Design should satisfy the desires of the user, the company and the society. Design should have personality and character to long lasting use."*

**Fredrik Mattson**

*Designer, Sweden*

*"It's a matter of turning challenges into opportunities, and keeping the original sketch alive. When I look back at my products, the ones that appear to be the simplest and most obvious are the ones that proved to be the greatest challenges."*

FREDRIK MATTSON

JAN EKSTRÖM

NIELS GAMMELGAARD

#### **Niels Gammelgaard**

*Designer, Denmark.*

*"We are not interested in doing design for the facade. We want to explore the core of design. We don't want to do more of what already exists, but rather make more out of the existence of design. Finding the core benefit of design that will do your life good."*

#### **Jan Ekström**

*Designer, Sweden.*

*"It has to be true vitality in the lines of the furniture. A naturally bold expression to make it become a favourite armchair each time!"*

#### **JOLLY**

*Design by Niels Gammelgaard.  
Leather Fantasy Black.*

#### **GAZELL**

*Design by Jan Ekström.  
Sheepskin Graphite.*

## **MATERIALS** FLAIR AND QUALITY

Product development is a central and very important part of Conforms business concept. The purpose is to realize both the designer's idea and our requirements by developing technical solutions and materials which takes design, functionality and comfort a step further. Our vision – Design for Life.

# THE PERSONALITY IS CREATED THROUGH FREEDOM OF CHOICE.

## THE COMFORT THROUGH INTELLIGENT FEATURES.

### DESIGN YOUR OWN **TIMEOUT**

Choose fabric, leather or sheepskin. Choose wood or upholstered base. Choose swivel foot or leg. Choose backrest height. With an aluminum swivel foot or a wood/aluminum swivel foot you can even choose height. The armchair also always returns to its original position. The designer of Timeout, Jahn Aamodt, means that "Design should satisfy the desires of the user, the company and the society and have personality and character to long lasting use". That's all about the perfect relaxing chair – Timeout.

# FREEDOM OF CHOICE

More than 500 fabrics, sheepskins and leathers.  
Various types of wood. Various types of legs.  
Various bases and various heights.

## TIMEOUT THE ARMCHAIR THAT CONFORMS TO YOUR WISHES

This is not just any armchair. It is your armchair. With the choice of details, you can show off your personality and reveal your character. A fine leather age gracefully, is made to be used and only gets more beautiful with time. The combination of leathers and fabrics – both in the armchair and footstool – also opens up for many individual choices. Discreet matching or daring contrast, there are no right or wrong. Your armchair can be anything from a faithful servant of everyday life, to a colourful solitaire that turns your living room into a show room – Each day.
