

## CORAL

Pouf  
Art. no.: 2-553

### Description:

#### **Unique and charismatic**

The CORAL pouf is inspired by one of nature's most delicate and beautiful organisms. The two-tone look and diagonal lining of the seat creates a unique and charismatic look. CORAL is truly a multifunctional piece of furniture. Be creative and combine the colours and materials to perfectly complement your interior.

Year of design: 2011

### Function:

High comfort.

Decorative.

Multifunctional.

Easy to move.

### Sales Arguments:

Geometric and functional design...

A ultrafunctional pouf with its sculptural design is a quite right accessory in an exciting design. A play with classical, geometric forms gives a design that surprises and challenges the common comprehension of this classical type of furniture.

### Design: busk+hertzog

Architects specialized in furniture / product design. The studio, today located in London UK, was established year 2000 by Flemming Busk (1967), architect MAA and designer MDD, and Stephan B.
