## Description

### Features

Futuristic bell-shaped Mona lamp exemplifies a sensitive beauty of smooth glass and soft curves. Light daringly pierces the delicate body of the lamp and illuminates the design's thrilling tension, while the artist's distinctive style is reflected in the unexpected combination of wood, textile, and blown glass. The shade and lanyard suspension straps are affixed to the LED light source with a pair of elegant wooden buttons.

### Technology

Combined craftsmanship / hand-blown glass in combination with oak and metal body. The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production.
