- 
- ▲ We exist to give everyone a chance to play by their own rules,
 - To express their creative vision through interiors that fear no boundaries,
 - To create room for the unexpected in a life that can be, otherwise, prescribed,
 - To have fun, and to make space for play.

POLSPOTTEN

For nearly 40 years, we've been creating interiors that combine the ethos of play with the spirit of creativity. By rewriting the old rulebook and letting our imagination run free, we've managed to see all sorts of unexplored places. Corners of the world where passion, curiosity, and design come to life in surprising ways.

As much as we love getting lost in possibility and seeing all that's out there, we recognize the importance of slowing down. Slowing down to look around and see our impact on the environment. Because it's when we do this that we can connect most with the world.

In a society that prizes speed and instant gratification, only a few have mastered the art of truly focussing on the question: Is this sustainable?

We managed to ask this question early on in our journey as a Dutch design company. That's why sustainability plays an important role in what we do.

Every product we design is built to last. From the concept down to the very thread, our designers take care to create products that will stand the test of time..

Each piece we produce is a nod to craftsmanship. By blending artisanal techniques with modern design twists, every piece is composed with the utmost respect and attention

All our collaborators share our value of connection, quality, and putting people first. When we work with our special team of certified partners, we're in it for the long run.

In the meantime, sustainability will be an essential element in everything we do. The best is still yet to come.

The Vision

Digital. Eclectic. Pure. This is what the POLSPOTTEN 2023 Collection is all about.

While the digital world and the natural world were once far apart, these days they're closer than ever. As the two worlds continue to become one, the 2023 collection demonstrates how they can live in harmony, even when in conflict.

Whether it's modernity and tradition, past or present, present and future, each item in this collection blends together opposites. It's through the art of design that we can do what others deem impossible: bringing ideas that normally don't normally go together, together.

Everyone who explores this collection will find something that resonates as each creation is rich with inspiration for the most diverse tastes and palettes. Feel the unique textures. Discover shapes inspired by nature. See colors more varied than a kaleidoscope. And rely on strong, durable materials at the heart of it all.

Throughout the collection you'll see another common thread: The spirit of sustainability running alongside the ethos of play. As the digital and the natural continue to collide, resilience will remind us who we are in the years to come.

Seating

Puff Lounge Chair

Introducing cozy comfort and bold design with our Puff Lounge Chair. Comfortable, compact, and cute... It's perfect for lounging around, socializing with friends, and curling up with a good book. Oh, and before we forget: Did we mention it's produced right here in the Netherlands? The Puff Lounge Chair isn't just the ultimate chill, it's also pure, homegrown goodness. With reduced transport emissions and local materials, this chair combines irresistible design with unmatched sustainability. Embrace the best of both worlds in your home. Now available in beige and 4 new colours.

Now, you can also wrap your arms around its new big brother, the Puff Lounge Love Seat. Double the size, double the comfort.

Melon Vases

Ah, the melon vase. Bright, fresh colours. A soft, round shape. It's a vase you'll want to stare at for hours, even without any flowers in it.

At first glance, these vases look modern. But take a closer look, and you'll see the truth: It's actually a redesign of an older terracotta pot - one of the first terracotta pieces to hit the Dutch market. Only now, we've updated it to match the current collection. If you've been following us long enough, you may have already recognized it. So if you've ever wanted to see the past and the present in one vase, here's your chance.

Discover the different sizes. The dimensions are based on the advice we got from our very best florist trade partners.

Bakkie Basket

Get inspired by the Bakkie Basket. Decorative, colourful, and playful, the Bakkie Basket brings the nostalgia of traditional woven baskets straight to your interior. If you long for times past but not experienced, this basket will please your eyes and your spirit.

The Bakkie takes weaving to the next level as it spins cultures and languages together into one beautiful product. The name "bakkie" is Dutch slang for a basket or bowl to put things in.

The structure is a nod to true craftsmanship: each basket is woven by hand. It's also the metal wires that lend the baskets their durability. You'll feel the difference the second you hold it. Pick one up today to store your things in or share with your friends.

Toss Cabinet

For some people, a classic uniform cabinet is enough. But for those with a curious, playful mind, who prefer to shake things up, there's the Toss Cabinet. After all: why be stuck to one way when you can have it multiple ways?

Made with modular horizontal elements, it can shapeshift into whichever lay-out you want. Rearrange. Replace. Repair. With the Toss Cabinet, it's easy.

The Toss Cabinet also takes sustainability to a whole new level. It's consciously designed with adaptability in mind. And before it arrives at your doorstep, it's transported knockdown style, ready for home assembly. The materials and finishing on this design have been carefully selected for durability, too. Almost as carefully as we selected this supplier for their modern production line.
