

# Orbital, floor design Ferruccio Laviani 1992

FOSCARINI

Orbital is Ferruccio Laviani's debut lamp, designed in 1992. This lighting object decorates with the boldness of a sculpture; a true icon of lighting design. The lamp's structure is essentially made up of three parts: a moveable tripod, made from laser-cut metal sheet, that supports a lacquered metal rod. Five arms extend from the rod and on these arms are diffusers made from serigraphed, industrial glass. Each slab has its own unique shape for a bold overall graphic effect which is particularly evident in the white version. The colored diffusers, on the other hand,

evoke a surrealist painting when the lamp is switched off. When the lamp is switched on these mosaic glass strips create an illusion. The diffusers are satin-finished on the outside to give texture to the color and enhance the shapes but glossy on the inside to reflect the light.

# Orbital, floor technical info

FOSCARINI

## Description

Floor lamp with diffused light. Epoxy powder coated metal tripod central frame and 5 different sized and shaped satin finish colored and painted glass diffusers, which are secured to the frame using epoxy powder coated metal glass-locks. ON/OFF pedal on the black cable.

**Materials** silkscreen-printed glass and lacquered metal

**Colors** white, multicolour

**Brightness light**  
directable direct light

## Model

### Orbital

### Weight

net kg: 10,14  
gross kg: 15,20

### Packaging

vol. m3: 0,208  
n. boxes: 2

### Bulbs

Halogen energy saver 5x30W E14

### Cable length

### Certifications

### Energy Class

A+ A B C
