ADVANCED VINYL PROTECTION

SPRADLING'S 3 IN 1 PROTECTION AGAINST GERMS, ABRASION AND STAINS

PERMABLOK³® from Spradling is a proven vinyl protective coating that's engineered to create a tough, effective barrier against the three biggest problems encountered in healthcare and hospitality environments – germs, abrasion and stains. You can't see it or feel it, yet the protection it offers results in extended performance and lasting beauty with a minimum of care.

PERMABLOK³® is a registered trademark of Spradling Holdings Inc.®

CARE AND CLEANING GUIDE

- The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants.
- Any stains, spills, or soiling should be cleaned up promptly to prevent the possibility of permanent staining.
- Use soft, soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.
- Lacquers, strong cleaners, wax polishes, abrasives, detergents, xylene-based solutions, acetone, or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk.

TECHNICAL INFORMATION

COMPOSITION:	Topcoat - 100% PVC Backing - 100% Polycotton Hi-Loft™
WEIGHT:	650 g/m ² (nominal)
ROLL WIDTH:	137 cm (nominal)
ROLL LENGTH:	30 m (nominal)
ABRASION RESISTANCE:	Martindale >300,000 cycles
ANTI-FUNGAL:	Mildew Resistant ASTM G-21
ANTI-BACTERIAL:	AATCC Test Method 147
UV RESISTANCE:	1000 hours, blue wool scale
FINISH:	PERMABLOK ³ ® ADVANCED VINYL PROTECTION
FLAME RETARDANCY*:	BS / EN / DIN 1021 Parts 1 & 2 BS5852 Part 2 (CRIB5) DIN 4102 B2 NF P 92-503 / M2 IMO A.652 (16) Annex 1, 8.2 and 8.3 FAR 25/853 FMVSS 302 EN 71-2: 2006+AI: 2007 Safety of Toys - Part 2: Flammability Directive 95/28/CE

* This term and any corresponding data refer to the typical performance in the specific tests indicated and should not be construed to imply the behaviour of this or any other material under actual fire conditions.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colours. This phenomenon is increased by humidity and temperature and is irreversible. CTP Textiles Ltd, SPRADLING International GmbH and EURO SPRADLING S.L. will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.
