## ***CARE GUIDE — NATURAL STONE***

### ***HOW TO CLEAN***

#### ***MARBLE***

To get rid of dirt and dust, use a damp cloth to wipe down the item.  
If necessary, wipe the item dry with a soft dry cloth.

*( Marble cannot withstand acid or acidic detergents, such as vinegar. Make sure to wipe off any acidic and normal liquids spilled on the surface immediately, to avoid stains )*

#### ***TRAVERTINE***

To get rid of dirt and dust, use a soft cloth with warm water and wipe the item down with the cloth. Travertine is porous and can be difficult to clean after getting stained. Please avoid contact with coloured liquid. Do not cut food on the travertine directly. Do not put high temperature products on the travertine.

*( Travertine cannot withstand acid or acidic detergents, such as vinegar. Make sure to wipe off any acidic and normal liquids spilled on the surface immediately, to avoid stains )*
