The main architectural feature is a large, arched glass door and window unit with a dark frame. The door is open, revealing the interior of the sunroom. Inside, there is a mustard-colored sofa with a white and black patterned pillow, a round coffee table with a vase of sunflowers, and a dining table with a white tablecloth and a black vase. A floor lamp is visible in the background.

A green metal chair with a yellow and white striped cushion is positioned on the left side of the sunroom. A wicker basket is placed on the floor next to it.

On the right side, there is a large potted citrus tree with green leaves and small orange fruits. In the foreground, there is a small metal stand holding a potted lavender plant, a pink watering can, and a light blue tray containing gardening tools and gloves.

## Home is where the B is

When you close your eyes, lean back into your favourite chair, and reflect on what is the essence of summer, a multitude of images, flavours and sensations come to mind. It is the image of ripe, yellow lemons plucked from the orchard and the bittersweet taste on your tongue when you've turned them into lemonade.

Summer is about taking your time to enjoy the satisfying feat of finishing a remarkable classical novel within two days. It's about redecorating the terrace, so it can serve as an extension of your living room throughout the summer and replenishing your herbal garden – even if it only consists of a few pots of basil, thyme and rosemary on the balcony. And it's all about (finally!) getting all those finishing touches in place, like seeking out curated table settings for the summer gatherings. Getting proper pillows and throw rugs for the garden furniture or just ensuring that you've restocked the cupboards with candles, champagne flutes, and flower vases - all the essentials required to set the scene for casual brunches and cosy summer dinners.

We asked ourselves how we could make it a delight instead of a chore to update your summer house, holiday cabin or the ins and outs of your own home. Thus, we wanted to make this collection a curated continuation of previous themes and motifs, making sure that your favourite keepsakes and items from summers past will fit right in with new colourful pieces and mood-boosting accessories.

Above all, we wanted to make the seasonal transition as joyful and frill-free as possible, so you can spend less time organizing and more time pursuing new summer memories. Whether you are within or outside your home, we'll ensure you're perfectly equipped to set the scene just as you had imagined.

## February feels Here comes the sun

When the first rays of sunshine enter the living room, we are reassured that no matter how cold, rainy, or dark the past months have been, a shift in mood, light and temperatures is immanent and underway.

Jumpstart the spring feeling by introducing novelties into your interior tableau, dining table and meal prep areas. First step is to add flowers, colours, and prints to your everyday mix. The Mella Vase is inspired by vintage Venetian glasswork. Its bonbon shape and candy coloured stripes give it a cute and contemporary vibe making it look equally pretty with or without flowers.

## Those days

We are ready to take the first steps towards lighter days, and so we fill our homes with Italian-inspired pieces that resonate with our slumbering memories of past summer holidays and aspirations for the new bright season ahead of us.

Extend the look with our new collection of striped glasses, Stribe, that share a Mediterranean charm with understated minimalist elegance, available in various shapes and sizes.

## Cute and generous

You've upgraded your table setting game with cute lemon and fish-shaped serving platters, and a generous salad bowl which is the latest addition to the elegantly understated Limfjord selection. And you've bought the Nordic Bistro silverware to add a modern touch to your favourite kind of dinner party: the abundantly unstructured ones, where cheese platters, pasta dishes and fresh bread are shared convivially amongst friends.

## March mood Spring cleaning

Why not organize all those pretty little messes, piles of scarves, cluttered drawers, and stacks of magazines? Marie Kondo got nothing on you once you carve out the time for a spring cleaning, reorganize your small treasures and make room for new decorative items: an Ibi fan on your wall, a pile of adorned pillows and a cute bedside table. And once you're done? Enjoy the fruits of your labour by treating yourself to a little bit of jazz, a slow Sunday morning and breakfast enjoyed in bed.

### No shallow waters

Sometimes it's the minor details that create the greatest impact. A new assortment of woven containers for your trinkets, powder brushes and odd size jewellery or hide the piles of laundry that tend to build over the week in the spacious Lykke baskets.

A tufted rug shaped like a beautiful Koi fish makes stepping out of bed, the shower, or the warmth of the sofa a luxurious treat, not an overwhelming effort.

## Making March Memorable

Virginia Woolf said it best: We should all be entitled to a room of our own. Have you created yours? If not, now is the time to claim your space for creative endeavours, quiet reflection, literature-loving and jotting down magnificent thoughts and bright ideas.

We love the idea of an unconventional workspace that can transition from a home office into a reading nook or the ideal place for arts and crafts. Our Berit desk offers a minimalist and modern version of a desk that can double job as a creative space or an artistic corner.

### Whimsical visions

Turn the room into your vibrant mood booster with our colourful notebooks, the quirky skirt lamp and our colourful hand-woven basket, Hanna, which works equally well as a hanging art piece as a hold-all for your sketches, markers, and memorabilia.

## April is the cruellest coolest month

Finally, it's here! The joker month of the year that requires spontaneity and improvised dates, agile party planning and an open mind to the ever-changing mood of the weather. Not to worry; you've got this, and we've got your back.

### Cheerful and enamelled

Planning for the unpredictable is easy with these new additions that have entered your home. The stylish Tulina coffee table, with its airy, perforated base and enamel top, is the perfect partner for afternoon tea in the backyard or an aperitif on the balcony before dinner. At the same time, your new Lemon Rug is the perfect colour pop to install a cheerful mood in many rooms.

## May - You make me feel like spring has sprung

Nothing feels more refreshing and reassuring that summer is underway than bringing your garden to life with a complete makeover or a curated upgrade.

The new sustainable range of doormats, Ceres, is produced in PET yarn made from recycled post-consumer plastic. It is not only plastic with the luxurious look and feel of wool. They do not absorb liquids, and any of your coffee or red wine spills are quickly cleaned off.

## Holiday nostalgia

The same versatility is apparent in the new range of garden furniture appropriately named Eden. The design is classic and sleek, and because all chairs are stackable, you can easily move them from the conservatory to the balcony, from your terrace to your neighbour's lawn.

In keeping with our multifunctional design thread, we've also introduced an entirely new series of seating cushions, covers and mattresses suitable for the beach, a sun bed or as part of the interim interiors in your kids' tree house. The Franka styles serve as informal flashes of stripes, fun and holiday nostalgia - best enjoyed in the company of a mellow mind, a warm heart, and your favourite ice cream flavours.

## Satisfied, treated and full

In need of a new look for your Sunday lunch spreads or Friday night nibbles? We've included ample plates to the Eli collection that can easily work as serving platters as well as perfect dinner dishes.

## June ... and all that jazz

Jumpstart the first official summer month by kicking back. Paloma will be this summer's most cherished souvenir: the hammock chair that everyone will want to read, rest, and relax in on repeat. The ingenious design makes it a cocoon of cosiness that fits sentimental souls of all ages and sizes, and you can easily move it from a treetop to the bannister on your pergola.

We've also made it easy for you to turn the garden party atmosphere into a beach bum vibe; the Franka mattresses furl nicely and are adorned with perfect cotton handles, making them easy to carry to and from your preferred spot in the sun.

## Summer evenings

Once you are ready for some shade, it is not only time for a treat at the beautiful dinner table. You can also feast your eyes on the lovely two-sized Rosario statement vases in glossy enamel and bright colours, stunning as centrepieces on a brilliant summer buffet or watering cans for your potted plants, olive trees and garden cherry tomatoes. You've upgraded your table setting game with cute lemon serving bowls, and you've bought the Nordic Bistro silverware that adds a contemporary touch to the table setting.

**Sit back, relax and  
enjoy the summer!**

Furniture

LAGOON COLLECTION

# Lagoon 3-Seater

The Lagoon 3-seater is a cosy and generous sofa floating on the floor with an inviting look - just like its modular family.

Wide upholstered armrests and backrests surround the spacious seat, ideally filled with cushions and throws in seasonal colours and patterns.

The high-density foam assures extra softness and invites you to cuddle up with your beloved ones.

# Lagoon Modules

The Lagoon modules have a contemporary silhouette in calm and natural colours.

The low frame has a distinct lounge feel; however, the combination of a high back and short seating depth invites you to stay put for long conversations, a comfortable read or an impromptu snooze.

High-density foam gives extra softness and optimal seating comfort, while the solid frame ensures that the Lagoon modules last for years.

WIND COLLECTION

# Wind Trevira

Inspired by the seasonal changes in Nordic nature, the Wind collection brings subtle sophistication to the signature aesthetic of Broste Copenhagen with its simple lines, smooth edges, and discreet tactile quality.

The Trevira Pod is a new fabric in our assortment. It is known for its tactile and functional weaving, making it highly durable and the perfect fit for carefree families, busy hallways, and offices needing a cosy lounge area. Add a bolster to mix and match as they are available in four additional colours for a tone in tone, beautiful contrast, or a calm look with a delightful, brown melange.

BAY COLLECTION

**BAY DESIGN BY Omayra MAYMÓ**

"Omayra Maymó is one of Spain's most talented interior designers, and it is a true pleasure collaborating with a person who is so meticulous in her design process and so passionate about every single curve, detail and line in the final product."

**Broste Copenhagen**

"I wanted to transmit a sensation of summer where the lines are blurred between in- and outdoors and where we all want to sustain the feeling of lounging by the sea even when at home."

The design of the sofa should be inviting and welcoming like the Spanish spirit while staying close to the pure and minimal essence of Scandinavian aesthetics.

When designing the sofa, I was inspired by the traditional Mediterranean seaside architecture, with white stucco and many curves. Very soft and laidback. I wanted to merge that with the clean Scandinavian minimalism creating a unique, subtle dynamic in the design."

**Omayra Maymó**

# Bay Sofa

Design by Omayra Maymó

The Bay sofa is designed by Spanish-based Omayra Maymó. The rounded edges and puffy cushions create a laid-back, fluid silhouette with a relaxed feel. It is a sofa that caters to your needs for comfort, and it has a distinct, welcoming look. The low frame has a lounge feel, reinforced by the fluffy cushions, the deep seat, and the low armrests. The wide, upholstered feet are a bold detail that creates a unique silhouette.

The sofa consists of an upholstered base defined by the lower frame and backrest, two-seat cushions and two back cushions. The base is constructed with an internal wooden frame and spring system, covered in layers of foam to achieve a gentle look and feel. The front of the backrest has an even softer feel than the rest of the base due to its thicker foam layer and extra down padding. The seat cushions and the backrest are made from high-density polyurethane foam, covered with down padding to provide the same lush bounce.

# POND COLLECTION

# Pond Chair

The Pond chair is of beautiful proportions, with a sturdy yet distinctive aesthetic that gives it an intimate and inviting look. The Pond chair is fully upholstered and has a clean silhouette inspired by a warm embrace.

The chair demonstrates the ingenuity of working with simple, curved lines that are equally pleasing seen from the back as the front. It is ideal for standing freely in a room to create a sense of a separate, enclosed area. The upholstered, curved backrest and sides retain the feeling of being cradled and supported while inviting complete relaxation. The slimmed-down proportions make it perfect for smaller spaces such as apartments, hotel rooms and workplaces.

ODA COLLECTION

# Oda Collection

The Oda Collection offers a wide range of versatile seating suiting any setting and every occasion and a complete look combined with the Oda table. The visual signature of the double-piped steel base gives every piece of the series a vigorous and easy recognizable silhouette.

The Oda chairs are angled for comfort and support with optional textile upholstery and backrest solutions adding another level of comfort to the series and adapting seamlessly to any setting.

# Oda Collection

The Oda collection is available in a form-pressed ash veneer stool, chair, bench, and a highly functional drop-leaf table inspired by the folding shaker table.

The sturdy matte powder-coated construction and beautiful veneered surface make this table the remarkable centerpiece. Transform the table to fit any setting or room.

The Oda collection is practical, space-saving and versatile.

NOBUKO COLLECTION

NOBUKO DESIGN BY METTE DEGN

“Mette Degn understands how to apply her architectural background to functional, interior design. She has an admirable way of making strict minimalistic choices look easy and appealing. Mette Degn adds a contemporary sense of chic to home essentials - and it was a delight to collaborate with her.”

**Broste Copenhagen**

“I loved the challenge posed by the ambitious Broste team. I was invited to create a flatpack bookcase with no stabilizing cross at the back and multiple ways of repurposing the shelves. It is no easy feat, especially when the look also

needs to be aesthetically pleasing. I am so happy with the final piece. It turned out beautifully, exceptionally flexible, and you can customize it to suit your exact personal needs.

Broste Copenhagen is known for functional designs that make it easy to organize your belongings and create meaning out of a pretty mess. I designed the organic-looking bookshelf and bookends with that endeavour in mind. I was inspired by the solid yet bendy structure of bamboo, which is resilient under pressure and elegant in its simplicity.”

**Mette Degn**

# Nobuko Bookcase

Design by Mette Degn

The Nobuko Bookcase demonstrates the ingenuity of working with simple and refined functionality.

The modular series consists of only one shelf combinable for the exact desired configuration with the four different heights of legs.

The Nobuko shelves and legs are sold separately and are available in dark grey and white.

## First pick your Nobuko legs

- 1:** A single Nobuko section requires two set of legs. One set consists of two legs.
- 2:** Extend the first section of Nobuko with one set of legs for each following section.
- 3:** Pick the colour and height of each section between the four different legs.

## Second place your Nobuko shelves

- 1:** For a single section with evenly distributed shelves, we recommend:

Three shelves for Low Nobuko

Four shelves for Medium Nobuko

Five shelves for High Nobuko

Six shelves for Extra High Nobuko

However, there is room for even more shelves or less to create a smaller or larger spacing.

- 2:** For the next section place the shelves staggered to the neighbouring shelves.

- 3:** Count the number of shelves and pick your colour.

“Maiken Lindhardt is a new designer with a promising design career ahead of her. With this collaboration, she demonstrates her unique ability to create multipurpose designs suited for simple living, tiny homes and trendy city dwellers.”

**Broste Copenhagen**

“The idea behind the Svante series was to design small shelf units with a simple expression and a high level of functionality. The two shelves were the result of an ongoing study of compositions and functional needs. I wanted to challenge the typical storage solutions by adding a sculptural dimension combining space for displaying objects as well as areas for hiding things. The Ninna tables grew from an intention of merging an industrial look with a soft, cosy feeling - they are perfect storage entities and conversation starters at the same time.

I love the idea that you can align form with function, make necessities look neat and add composure and harmony to small spaces and tiny homes.”

Outdoor

# Eden

In keeping with our Danish roots, the design is sleek and minimalistic with an airy, inviting quality. This makes Eden the perfect furniture option for any outdoor space you want to share with your family, friends or just a quiet moment in the company of your thoughts.

The collection is made with as much attention to detail as it is to functionality and comfort. All chairs are stackable, the tables are foldable, and each piece is made with minimal use of powder-coated steel. The straight lines of the design create a subtle shadow play, adding a decorative touch to the surface of your wooden terrace or the surrounding walls of your favourite corner.

**Size:** W115 x L54 x H80 cm

**Sales Unit:** pc 1

**Material:** Powder-coated steel

**Info:** Treated with anti-rust coating and is suitable for outdoor use.

**Care:** For the best care we recommend storing the Eden bench dry and frost-free during the winter to ensure a long lifespan.

Prolonged outdoor use and exposure to the elements will however cause the bench to develop rust over time

**GINE**  
ULRIK NORDENTOFT

“It is refreshing to work with a designer like Ulrik Nordentoft, who has a new, conceptual take on the process of designing with a sustainable mindset. Ulrik’s design philosophy is honest, very hands-on and he manages to balance timeless aesthetics with a contemporary functionality.”

**Broste Copenhagen**

“I was inspired by the playful nature of fashion, hence the name, Gine, which is the Danish noun for a tailor’s mannequin. I was compelled by the ease of changing the expression of an entire room, without having to buy a new lamp but simply by changing the colour of the lamp shade.

The Gine Lamp Series is so intuitive and straightforward. You have something simple and minimalistic, that allows you to transform it into a new expression that matches your interior and mood. The playful aspect of home decorating is made easy and accessible.”

**Ulrik Nordentoft**

# Soft on your feet as well as your consciousness

Want to feel even better about your small home improvements and decorative elements? We are happy to influence your home in a way that is just as conscious as it is beautiful in a demure colour scale.

Several of our new textile designs are made from recycled polyester (PET), a sustainable alternative to traditional textiles, but with the same feel-good sensation as a soft wool blend. Enjoy the grounding feel and warm aesthetic of this vibrant and practical material in our cushion covers, door mats and hammock chair.

"Paper is more than a canvas.  
The Iro series turns work and  
organizing into a playful project  
by opening new and creative ways  
of writing and drawing with a  
colourful backdrop."

# Tableware

## Nordic Bistro

Stackable cups and plates made from sturdy ceramics in a deep, sandy beige is the latest addition to Nordic Bistro - our design collaboration with interior designer, Aurelién Barbry. The industrial feel is smoothed over by the soft edges and perfectly shaped handles making the collection easy to style in both minimalist and colourful settings. The initial inspiration for the Nordic Bistro collection was the vibrant food scene of downtown Copenhagen - but the versatility of the items makes them perfect for casual dinner parties as well as restaurant meals.

### NORDIC BISTRO TABLEWARE AURELIÉN BARBRY

“Collaborating with Aurelién Barbry is always energizing and uncomplicated. Being an acknowledged industrial and interior designer, he brings an intuitive flow to the design process. We loved the Nordic Bistro tableware that adds a robust charm to any dinner table.”

**Broste Copenhagen**

“My design philosophy is to move objects towards a more simplistic expression. I want to shape items that are evident necessities with a touch of no-nonsense functionality. Nordic Bistro was inspired by the buzzing bistro scene in Copenhagen; however, it is just as great a pick for adding a vibe of contemporary cool to your own table setting.

The decorous tableware is made from sturdy ceramics and can resist the wear and tear of a bustling cafe or a busy family. The collection is just as versatile as it is unique.”

**Aurelién Barbry**

**Care:** Dishwasher safe at max 65°C,  
Microwave safe at max 675W

# Nordic - a dish for every mood

The Nordic tableware collections have a strong Scandinavian appeal, with gentle colour palettes and smooth, organic lines. The Nordic Vanilla series has a signature smooth surface that looks just as inviting as homemade vanilla ice cream, while Nordic Coal has a sumptuous and strong look inspired by nature's own, beautiful raw materials. Nordic Sea is inspired by the dramatic blues of the North Sea on a stormy day with the crashing waves, foamy whitecaps and the dark blue horizontal line, and Nordic Sand epitomizes the same organic designs in natural sandy nuances for a soft and versatile look.

All four lines consist of tea pots, milk jugs, mugs, and cups as well as bowls and plates in several sizes. Each item is finished by hand with a reactive glaze giving them all a personal expression. When kept apart, the individual lines make your table setting look modern and casually elegant; but you can easily mix up styles in contrasting colours creating an informal and contemporary mood.

## Eli

The Eli collection is characterized by its smooth edges and soft colours giving it connotations to modern Japanese tableware. The collection has an aesthetic affinity to the elegant, Japanese design tradition. It consists of broad selection of ceramic items in different colours adding a playful Nordic twist to the look, when you mix them up. The soft blue shade has a glossy glaze - reflecting light and adding vivid accents to the surfaces. The shades come with a matte finish and a subtle texture reminiscent of natural stone. The glaze has a reactive quality when burnt in the ceramic's oven, which ensures no two items are just the same.

# Limfjord

Limfjord is inspired by the namesake Danish inlet, its beautifully curvy coastline and underwater limestone landscape. The tableware series is designed with the organic shapes of the seabed in mind, where the soft tones of ceramic items are chosen to resemble the nuances of mussels and oysters. Each delicate, organic piece is finished with a reactive glaze that gives a soft finish like watercolours. The series fit like a charm with our other collections, or they can take center stage in a charmingly, rustic table setting.

# Grød

GRØD x Broste Copenhagen is a collaboration between Broste and Denmark's leading porridge eatery. The collection consists of fifteen unique designs that fit the Danish concept of hygge, home-cooked meals and informal eating in a vibrant atmosphere. The collaboration explores the Nordic traditions of serving warm meals year-round in an understated and inviting way.

Broste Copenhagen's knowledge of timeless design inspired by the Nordic sensibility combined with GRØD's passion for developing modern, culinary porridge was the perfect foundation for collaboration based on a mutual dream of fusing the love of satisfying food with enduring design.

# Salt

Embrace your inner minimalist with our elegant Salt collection. With a focus on classic shapes, this collection is characterized by its white glaze and hand-painted black brims. The unique look of each piece is achieved with a special glaze that develops a distinctive texture and colour when burnt in the ceramic furnace. With an option of dots or a clean look, the collection can be mixed to achieve an effortlessly chic table design.

# Esrum

Esrum is our minimalist tableware collection inspired by the small Danish town, Esrum, dating back to the Middle Ages and is known for its beautiful monastery and the second largest lake in Denmark. The design and colour scheme are inspired by the dark waters of the lake and the sombre, romantic feel of the area. All items in the collection come in two different textures: a crisp white and dark ivory glaze, and they vary in colour and texture due to the ceramic burning process.

# Pesce

Pesce makes you sense the sea breeze, the sweet scent of jasmine, and the pleasant temperatures that make us want to stay up for longer and gather around the table for a delightful meal. The Pesce lemon bowls and fish-shaped serving dishes spread a Mediterranean vibe and bring back precious memories.

# Shape

The Shape serving series is as beautiful as it is versatile, with individual silhouettes made of porcelain and glazed by hand, creating a lovely organic feel. Each piece is unique, and the variety within Shape makes the serving series ideal for adding colour and organic look to the dining table. Available in refined colours like soft grey, camel and dark chocolate brown, all in a mix of matt and shiny glazes, giving each piece a vitrified stone-like surface with a tactile feel, creating a coherent identity.

# Nordic Bistro

Aurelién Barbry's initial inspiration for the Nordic Bistro series was the vibrant food scene of downtown Copenhagen - but the versatility of the items make them perfect for casual dinner parties as well as restaurant meals". The Nordic Bistro cutlery is designed to be functional and yet beautifully aesthetic, which all will add that simple and timeless touch to a table setting. The series is designed by according to its function and related by gentle, harmonious forms that reflect Aurelién Barbry's design philosophy.

## About our products

### Marble

Marble is a stunning material with minor natural variations making each piece unique. We recommend hand-washing marble cutting boards with a mild dishwashing liquid and a soft sponge. Marble is not suitable for dishwashers or exposure to drastic temperature changes, as it can cause cracks. Please use a knife carefully on marble cutting boards as it can damage the knife and scratch the cutting board's surface.

### Fiberclay

Fiberclay is an excellent material for outdoor furniture and planters. The mix of fibre and cement makes the items as solid and beautiful as concrete, but opposite, lightweight, and easily moveable.

It is a natural product with accepted colour variations, even in planters manufactured from the same batch. Colour and surface will patinate over time when exposed to different weather conditions due to the naturally retained salts.

For the best care, we recommend a stone sealer or wax treatment and storing it dry and frost-free during winter to ensure a long lifespan.

### Ceramics

All our dinnerware and decorative items made of stoneware, porcelain, clay, or ceramics are finalised by hand. The craftsmanship gives every item minor, beautiful irregularities in the form, tone, and glaze colour. Such natural variations remind us of the authenticity of our tableware and are, for us, a welcomed part of the expression.

#### Porcelain and Stoneware

We use stoneware and porcelain clay in our dinnerware series, and we love the contrasting expression of the denser and stone-like quality of the stoneware and refined porcelain. The main difference between the two types of clay is that stoneware is more dense and less porous than porcelain. Stoneware is burned at approx. 1100 - 1250 degrees and contains more water after firing than porcelain and can therefore become hot in use. Porcelain with the light, almost translucent "shell-like" is fired at very high temperatures from 1200-1450 degrees. When the porcelain is fired, it has a smooth and hard structure. Both materials are strong and durable with a distinctive look and feel.

#### Reactive glaze

Reactive glazing is our absolute most worshipped glaze because its variegated colouring makes each piece subtly one of a kind. The final finish is unpredicted due to the non-formulaic firing in the kiln. Therefore, no two pieces of reactive glaze dinnerware are alike and will have unique traits and nuances.

The detailing of our Nordic Sea and Salt series is made by hand, making each piece unique.

Sometimes we let the colour be defined by the raw material, which by nature will give tiny variations in the tones of the series. For our Nordic Bistro dinnerware, we have added a transparent, glossy glaze that adds a beautiful depth to the natural colour and reveals imperfections in the raw material that is usually not visible.

Some of our tableware series are formed by grouting the material with high pressure into forms. In this process, minor dents will inevitably occur and are not perceived as production faults.

#### Dishwasher

All our tableware series are suitable for the dishwasher. However, temperature above 65 degrees can contribute to the crazing of the glaze and is therefore not recommended. We also recommend to unload the dishwasher when it has cooled down to avoid chipping.

#### Microwave

All our tableware is microwave safe. However, an effect above 675 Watt can overheat and damage the item and is not recommended.

#### Marks, Scratches and Stains

Plates and bowls will get cutlery marks and small scratches of usage. Especially unglazed and matt glazed surfaces are even more sensible compared to normal and glossy ceramic surfaces. Neither are perceived as production faults. The marks can to some extent be removed with Vienna chalk on white items or polishing material for glass ceramic cooking plates, but please remember to follow the instructions for use carefully.

#### Crazing glaze

Crazing is a network of fine hairline cracks that appear on the glaze surface. Tableware consists of a body of ceramics and a cover of glaze, and if the conditions for the body change more than the glaze, crazing occurs. Moisture can get into the piece if it gets soaked, causing the item to expand or contract, and if the ware is heated or cooled, use in a microwave or dishwasher can cause crazing over time.

#### Crazing can be caused by

- sudden change in temperature and humidity
- moisture damage if it has been soaked
- being bumped and moved around

Crazing generally happens with age. That's why you see vintage and antique items with crazing more often than new items. However, crazing glaze is not perceived as production faults.

## Glassware

Most of our glassware is mouth-blown.

Mouth-blowing is an old technique and is widely used.

The process requires heated and liquid glass to be placed into a mould, where the glassblower blows the glass into its shape through a pipe. A mouth-blown series that greets the idiom and uniformity requires skilled artisans. The process is unique and evident in each glass and expressed in the minor variations in colour, size, thickness, and tiny bubbles. The natural irregularities remind us of our glasses' authenticity and tell the story of the artisan's relation to the glass.

### Dishwasher

Our glasses are dishwasher safe, and we always recommend the glass program or temperatures below 55 degrees to avoid glass plaque. Place your glasses well-spaced out in the dishwasher and ensure they are not touching each other or other objects. If available, use a stemware rack as it provides support and stops your glassware from moving around. We recommend taking the glasses out of the dishwasher or opening the lid once the washing program is finished, as the steam in the machine can stimulate the breakdown of the glass.

## Oiled Oak

Kitchen accessories made of oiled oak must be washed by hand. After use, wash them with a bit of dishwashing liquid, rinse the board in hot water, wipe clean, and allow to dry upright. To avoid cracking, drying, or warping, give them a little love from time to time by keeping the boards oiled - which is also essential to keep the wood's anti-microbial properties intact.

## Lacquered Veneer

Lacquered veneer ensures the uniqueness of every surface with varying grain patterns, which is part of the charm of the wood. When it comes to protecting the surface, you'll need to keep an eye on, moisture, heat, and sunlight.

Spilt liquids must be wiped away immediately. When treating stains, use a mild detergent and rinse with clean water. Avoid harsh detergents or products containing scouring powder, as this will cause dull, scratched, and damaged surfaces. It's also essential to protect the surface against the heat or steam from hot plates that can, over time, loosen the glue holding the veneer to the surface underneath. If exposed to direct sunlight over long periods, the colour of the surface can be subject to fading.

Lacquered veneer is only for indoor use.

## Bamboo and Rattan

Rattan and bamboo are natural and beautiful imperfect materials with unique and inevitable colour variations, markings, grains, and dents that don't influence the product's durability, strength, or lifespan. The handmade nature of rattan and bamboo furniture, lamps, baskets etc., means that no two pieces or sides of the same piece are alike.

Please be aware that rattan or bamboo can become brittle or damaged when exposed to heat or moisture. However, a bit of care will keep the material last for years. The item should regularly be dusted or vacuumed with an upholstery brush and low suction and, when needed, more thorough with a damp cloth. Any food, drink, or mud stains should be cleaned away immediately with mild soap and please ensure not to soak the material.

We don't recommend leaving rattan or bamboo exposed to the weather when not in use. Store it dry and ventilated over the winter to ensure a long lifespan.

## Cutlery

Our cutlery will serve you for years to come with proper care and use. Stainless steel needs to be understood by its name. Not stain-free, but stains less, and by stains, we mean rust. No steel alloy is 100% resistant to all the food or chemistry in our kitchen. It can erode the surface and cause rust stains. So please be aware that food acids found in ketchup, mustard, egg, lemon, etc. and ferrous and chlorinated water can attack steel and cause rust stains. Therefore, we recommend that the cutlery is rinsed or washed immediately after use.

Most of our cutlery is dishwasher safe but as with all cutleries, be careful using aggressive dishwasher detergents. We know it's more convenient to use the dishwasher than washing by hand, but it won't risk shortening its colour or lifespan.

Our cutlery ranges are manufactured from 18/8 chrome /nickel steel for the forks and spoons. To ensure the sharpness of our knives, we use special 13/0 chrome steel with carbon. You may therefore find that the blades are more susceptible to rust.

## Lamps

All lamps are CE approved and suitable for 220-240 volt. Table and floor lamps have a two-pin euro plug. For indoor use only.

## Maintenance of upholstery furniture

We recommend tested and approved upholstery care kits for impregnation and stain cleaning. Do not rub too hard on the fabric when vacuuming or spot cleaning, as this may force pilling.

Remove non-greasy stains by carefully dabbing with a sponge wrung out in clean, warm water. If necessary, only use water and alkaline-free soap when treating stains and always rinse with clean water. Consult a professional if in doubt.

Vacuum the furniture regularly using the upholstery nozzle or brushing with a soft clothes brush – always in the direction of the nap to remove dust and avoid fluff and pilling.

Fabric upholstery does not benefit from standing in direct sunlight. Some fabrics will fade faster than others, but synthetic fibres and light colours will fade the least as a rule of thumb. Therefore, if the need is for a sofa that is exposed to a lot of sunlight, synthetic fibres will do the job better than natural fibres.

Wool fibre is a natural material with excellent properties besides being both warm and comforting. It is durable, elastic, and dirt-repellent due to the natural lanolin in the wool. Wool may initially release some excess fibres from the surface, called pilling. The piling does not affect the quality but is a sign of good and natural quality.

The polyester fibre is durable and easy to maintain. We highly recommend this fabric where there is a lot of wear. The Trevira CS fibre is a 100% inherently flame-retardant polyester with a strong environmental profile.

Velour fabric can become creased and crumbled during transportation and after sustained use. To rejuvenate velour and restore its pile, apply steam from an iron or a steamer from 2-3 cm. Then comb with a soft brush in the direction of the pile.

### Martindale

Durability is measured as Martindale. In the case of hard wear, the abrasion resistance (Martindale) should be above 20,000, but for daily use, abrasion resistance of 10,000 or more is enough. The abrasion resistance of our selected fabrics varies from 20,000 to 120,000 Martindale. Substances with Martindale higher than 80,000 are suitable for public use.

### Lightfastness

Lightfastness relates to the ability of a textile to retain its colour under light exposure and is ranged from 1 (poor) to 8 (excellent). The lower the lightfastness, the greater the risk that the fabric will fade with time.

### Pilling

Pilling is to which extent pills appear on the surface of the textile and are small accumulations of fibre, known as bobbles and lint balls, that emerge due to, e.g., wear, dirt, or the use of unsuitable cleaning detergent. Pilling is scaled from 1 (poor) to 5 (excellent).

## Our labels

### Oeko-Tex Standard

The Oeko-Tex Standard 100, developed by a group of European textile institutes, is a global testing and accreditation programme for screening harmful substances in consumer textiles. Products with the Oeko-Tex label are tested and guaranteed to be free from all harmful substances, including toxins and irritants.

### Nordic Swan

The Nordic swan is the official eco-label of the Nordic countries, ensuring products with minimal environmental impact and products checked for unhealthy and harmful substances.

### FSC

When you choose FSC® as a consumer or business, you are helping to ensure the natural and social working conditions in the forests that the wood origins. In an FSC® forest, there are only felled as many trees as the forest can manage to reproduce. FSC® is the environmental standard for responsible forest consumption. Please look for the FSC logo on our FSC certified products.

### Global Compact

We are pleased to confirm that Broste Copenhagen reaffirms its support of the Ten Principles of the United Nations Global Compact in Human Rights, Labour, Environment and Anti-Corruption. Please go to [www.brostecopenhagen.com](http://www.brostecopenhagen.com) for more info.

### Global Recycled Standard

The Global Recycle Standard is an international, voluntary product standard and a certification for recycled material, chain of custody, social and environmental practices, and chemical usage limitations. These are standards set to protect the environment. The Global Recycled Standard is intended for use with any product that contains at least 20% recycled material.

Each production stage is required to be certified, beginning at the recycling stage and ending at the last seller in the final business-to-business transaction.

Material Collection and Material Concentration sites are subject to self-declaration, document collection, and on-site visits.

## Candles

Broste Copenhagen has a long tradition of producing candles with the best manufacturers. We use modern quality standards as a benchmark for all our candles.

We work exclusively with selected raw materials such as fully refined paraffin wax, high-grade stearin, and pure cotton wicks in our production. We are committed to having our candles tested by neutral and independent product testing services to maintain our position.

All our candles are made without palm oil.

NEVER FORGET A BURNING CANDLE,  
IT IS LIKE AN OPEN FIRE.

Our candles are tested according to the three EU norms;

EN 15493 specifications for fire safety  
EN 15426 specifications for sooting behaviour  
EN 15494 specifications for product safety labels

Additionally, to consistently ensure the high quality of our candles, our in-house quality management continually controls both finished candles and raw materials. All test results are documented accordingly. Reliable quality and continuous product development and improvement are the basic principles we have committed to throughout the years.

Never leave wick trimmings, matches, or any other material in the wax pool, as these can create a fire hazard.

Please always trim the wick to 1 cm before lighting the candle, and make sure that the wick is upright.

Pieces of wick that have been cut off or other items that fall into the candle wax can re-ignite, causing the candle flame to become much larger than is safe, even if it is in a container.

Dispose of all packing materials or foreign matter before lighting a candle. Some of our candles have a paper band wrapped around them or a wicked tag. Make sure to remove any of these items from your candles before lighting them, so they do not catch fire.

The wick is made so that the candle burns safely. If a wick becomes too short, it will produce a too small flame for the candle to burn correctly.

Extinguish the flame and carefully pour off the liquid wax to fix this. Relight the candle and allow it to burn for about one hour. If the flame is still too small, repeat the process until the flame can continue burning the wax it has melted with a regular size flame.

Prolonged exposure of candles to a temperature below minus degrees could cause the wax to crack.

### Scented Candles

All scented candles are made from soy wax - a processed form of soybean oil. Soy wax is a natural wax made from a renewable source. Burning soy candles does not increase the CO2 level in the atmosphere.

## Important information – safety

Warning!

Never leave burning candles unattended.

Keep burning candles out of reach of children and pets.

Keep a distance of at least 10 cm between two lit candles.

Keep lit candles away from flammable materials and keep away from anything that can catch fire.

Trim wick down to a minimum of 1 cm and always trim the wick if candles give off sooty smoke.

Avoid sooty smoke, use a candle extinguisher instead of blowing out the candles.

Always place candles in steady candleholders that will not burn.

Do not place candles in a draught.

Do not leave candle in direct sunlight or at temperature below 0 °C. Candle will get damaged under extreme temperature changes.

Cut the edge of pillar candles down if it gets too high, so the candle burns evenly.

# Fabric Options

## TEXTILE SIENA

**Composition:** 54% Polyester, 36% Viscose, 10% Linen

**Martindale:** 90.000

**Lightfastness:** 4-5

**Pilling:** 3-4

**Certifications:**

Contract marked EN-16139

EN1021-1

EN1021-2

BS5852

## TEXTILE GABRIEL FOCUS

**Composition:** 100% New Zealand wool

**Martindale:** 100.000

**Lightfastness:** 5-7

**Pilling:** 4

**Certifications:**

Contract marked EN-16139

EN1021-1

EN1021-2

## TEXTILE GABRIEL SELECT

**Composition:** 85% New Zealand wool, 15% polyamide

**Martindale:** 200.000

**Lightfastness:** 5-8

**Pilling:** 4

**Certifications:**

Contract marked EN-16139

- Unique access to special deals
- Inspiration, tips and trends
- Summary of precedent/previous order

## Sales & Delivery Terms

[brostecopenhagen.com](http://brostecopenhagen.com)

Prices in the catalogue are net prices and excluding VAT. Prices are valid from January 1st 2023 – June 30st 2023. Due to the fluctuations in the global foreign exchange markets, and due to the rising raw material prices, we reserve the right to change prices without prior notice.
