CARE GUIDE — MIRROR

HOW TO CLEAN / POLISH

MIRROR

Make sure the mirror is clean for dust & dirt on all surfaces before you begin the cleaning. If the mirror is extremely stained use vinegar added water on a cotton pad to wipe of the dirt. Spray glass cleaner on the item. Use a dry microfibre cloth to spread the cleaner and wipe the item dry and shiny.

(Avoid rubbing with an abrasive cloth, that it could damage the surface. Keep in mind that some cleaning products will leave streaks on glass, so make sure to use one designed specifically for glass)

STORYTELLING

VERTO MIRROR / BY AYTM DESIGN TEAM

The VERTO mirror is a piece of wall art challenging the perception of the viewer as its reflections elegantly transforms when you pass by it. The rainbow-coloured option playfully brightens up the surrounding space, where the smoked-black combination reflects in a deeply sophisticated manner.
