TUBULAIRE COLLECTION
Designed by *Krøyer-Sætter-Lassen*

Leading innovation in lighting, Audo Copenhagen introduces the Tubulaire Collection.

A fusion of industrial charm and modern elegance, the Tubulaire Collection includes single pendants, chandelier arrangements and rail and canopy lighting with multiple sources to deliver a visually captivating lighting solution for a variety of environments.

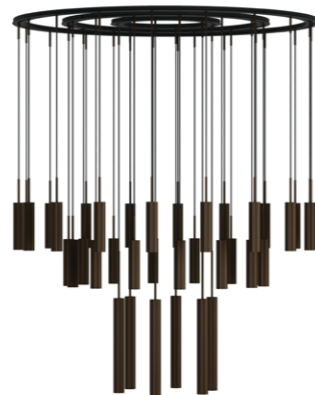

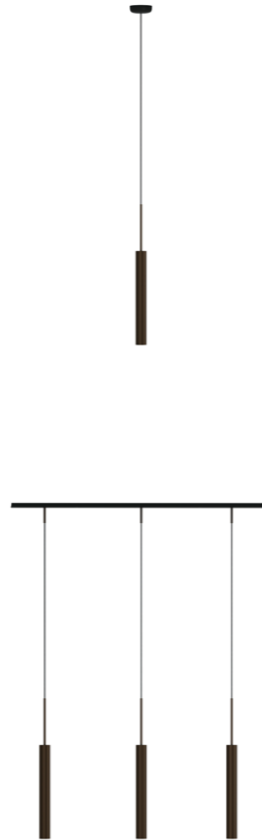

Shaped from bronzed, reeded metal and engineered with durability in mind, the series meets the stringent demands of both commercial and private settings while retaining its aesthetic appeal. The focused light output makes the new designs particularly effective for task-oriented activities, creating an environment that promotes productivity and concentration through the perfect balance of ambience and functionality.

Customisable features, including the ability to seamlessly combine multiple rails with up to five pendants each, allow users to tailor Tubulaire to spatial and aesthetic requirements while maintaining a consistent design language that sets any space apart.

The Tubulaire Collection launches online and at Audo Copenhagen retailers on 28. February 2024.

About the Designer

The Copenhagen-based design studio Krøyer-Sætter-Lassen creates furniture and interior objects for clients across the world. Founded in 2016 by Mads Sætter-Lassen and Emil Krøyer, their honest approach to design results in logical, functional and sculptural objects that showcase their strong cultural understanding and Danish design heritage to bridge the gap between art and design. Krøyer and Sætter-Lassen's honest focus is revealed through their consideration of material properties and tectonic details.
