Autumn by Kvadrat

Autumn is an upholstery textile woven from 100% recycled polyester. It comes in a nuanced colour palette designed by Teruhiro Yanagihara, inspired by the transient nature of the ‘ageing season’.

The textile is constructed with a recycled polyester yarn made from used plastic bottles and woven in a layered double-beam weave. This composition gives Autumn a soft, natural hand and allows it to be continuously recycled with no degradation in quality.

A dark, unicoloured background is used across Autumn’s colour palette, and offers a rich contrast to the melange top layer, which features yarns created from a mix of two fibre-dyed colours. The scale comprises a selection of neutrals including a white melange, papery beige notes and greys, and characterful reds, blues, and oranges, alongside a lively black shade.
