

SOFT PENDANT 18IN

Showing a more neutral and understated side of Tom Dixon, SOFT emits a warm, diffused and flattering glow. Inspired by the near-spherical surface of a partially formed celestial body, SOFT is constructed from a welded steel frame and sprayed in a cocoon of diffusing material. Customise SOFT to suit your mood or setting with the use of a smart bulb, adjust the colour temperature and brightness to transform the ambience and redefine the character of the piece.
