Kizu Table Lamp

Lars Tornøe

The bestselling Kizu Table Lamp gains a calm and grounded feel in a new warm grey marble variation. The shimmering surface of Gris du Marais contrasts the clean white upper part of the lamp, while the bright streaks of the stone's natural pattern harmoniously tie the elements together. In a play with shapes and materials, which culminates in the kissing point between the two forms, Kizu spreads its soft light as an intriguing modern sculpture.

Materials

Shade in white acrylic, base in marble and black PVC cord.

About New Works

New Works presents a collection at the intersection between old and new. Light and dark. Design and art. Our work pays homage to the strong Scandinavian history of craftsmanship and materiality, whilst challenging the contemporary forms of today. We collaborate with an international group of renowned designers and artists, who display a matching fascination with sculptural forms and honest materials. These collaborative pursuits convey our love of the sensual, and of the bold.
