

DESIGN BY MIGUEL MILÁ

HAY

BISBAL COFFEE TABLE

HIGHLIGHTS

- A Sculptural coffee table designed by Miguel Milá in the 1960s
- Originally made from fibreglass, reissued by HAY in glazed ceramic while retaining the character of the original design
- Made entirely from glazed ceramic, with the material shaping both its structure and expression
- Reflects Milá's appreciation of natural materials that age well
- Suitable for a wide variety of private and public environments
- Qualified for contract use

BISBAL COFFEE TABLE DESIGN BY MIGUEL MILÁ

Designed by pioneering Spanish modernist Miguel Milá in the 1960s, Bisbal Coffee Table has a sculptural form with carefully balanced proportions. Milá championed natural materials that age well, but he was always open to new materials and processes. The table was originally made in fibreglass, while the HAY reissue translates it into glazed ceramic, a natural choice that ages well and respects the integrity of the design. Used on its own, the ceramic gives the table a clear, self-contained construction that reflects Milá's characteristic approach to finding simple and purposeful answers to everyday needs. Available in several glossy finishes that catch the light, it suits settings from residential interiors to cafés, restaurants and other public spaces.

Miguel Milá (1931–2024) was a pioneer of modern Spanish design. He began working in the 1950s, when Spain had almost no design industry, so he made prototypes by hand, worked with local craftspeople and often designed for needs in his own home. His simple, practical designs span lighting, furniture, and public seating. His designs for HAY include the Salvador Collection and the Bisbal Coffee Table.

Bisbal Coffee Table | Glazed pale ochre
Bisbal Coffee Table | Glazed bone

Originally designed in 1968 and produced in fibreglass.

Produced in Portugal from slip-cast earthenware elements, the table retains its high-gloss finish, now using a glazed surface.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC®-certified wood (FSC-C148805), and bio-based foam that helps lower our products’ overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
