CARE GUIDE — NATURAL STONE

HOW TO CLEAN

MARBLE

To get rid of dirt and dust, use a damp cloth to wipe down the item.
If necessary, wipe the item dry with a soft dry cloth.

(Marble cannot withstand acid or acidic detergents, such as vinegar. Make sure to wipe off any acidic and normal liquids spilled on the surface immediately, to avoid stains)

TRAVERTINE

To get rid of dirt and dust, use a soft cloth with warm water and wipe the item down with the cloth. Travertine is porous and can be difficult to clean after getting stained. Please avoid contact with coloured liquid. Do not cut food on the travertine directly. Do not put high temperature products on the travertine.

(Travertine cannot withstand acid or acidic detergents, such as vinegar. Make sure to wipe off any acidic and normal liquids spilled on the surface immediately, to avoid stains)

TRIBUS OVAL COFFEE TABLE / BY AYTM DESIGN TEAM

These elegant marble and travertine tables in natural colours can be placed together – creating a stacked effect as the tables have different heights and shapes. The design is simple with thoughtful details on the table legs that gracefully and worthily carry the marble and travertine table tops. When placed together, the tables create a true work of art worthy of displaying in the centre of your home, perhaps as the focal point of your living room. TRIBUS coffee table is available in various sizes, shapes, and colour options.
