### DESCRIPTION

Best known for collaborating with contemporary designers and reviving archival pieces, GUBI's Milan-based design studio has created an outdoor table collection with the mood-setting title, Atmosfera. Comprising a dining table in two sizes and a coffee table, the collection has been conceived to bring a unique vibe when gathering outside for al fresco dining and lounging. The Atmosfera Collection represents the attention to detail and quiet elegance that characterizes GUBI.

The tables' simple aesthetics maintain an understated poise with a nod to classic references without being too formal. The tabletops are made from rhythmic, repeating slats of solid, premium teak, enclosed by a frame made from the same slats, giving a minimalist feel. The table legs are formed from two vertical slats, using a miter joint that creates an inverted 'L-shape' on each corner. Referencing architectural and maritime design, the unusual leg design provides both structural support and visual interest, giving the piece a certain lightness. Each leg protrudes slightly above the tabletop surface, culminating in a rounded detail in contrast to the geometric lines of the structure, that gives a calm composure to the design.
