pols potten

unique in style

Everything we choose to surround ourselves with today will find its way into future generations. Our decor, furniture and interiors are crafted for self-expression, functionality and human connection. We have created a boundless contemporary style that will exhibit your individuality no matter the time or season.

Our juxtaposing nature has lead the way in the development of our latest collection. You will find familiar shapes, tones, and textures feeding your feelings in a new and refreshing context.

Handcrafted wooden structures contribute towards an organic ambience and the feeling of a naturally calm environment. The combination of robust cast iron and coloured marble adds to the structural quality of our pieces with a modernised aesthetic. We incorporate smooth surfaces with a deep and luxurious flavour to add inspiring sophistication to the collection.

In true pols potten style, we pride ourselves in the use of compelling colour. This collection boasts distinctly deep rich hues with soft matted earth tones, warm reds, emotive greens, royal blues and luscious beiges.

The application of tactile materials and each detailed component on our designs show our appreciation for true craftsmanship. As much as we're focussed on how our designs will make someone feel when interacting with it in present time, we've also thought about engineering our designs for future era's.

be inspired, be unique, be connected
