Playful Conversations

A child's room is a magical place. Free from the restrictions and limitations of the outside world, it's a space for play, creativity and rest; where young minds and hearts are free to explore the boundaries of their imagination on their own terms.

Our AW22 Kids collection is a celebration of that. Our new designs are pieces that embrace imaginative play, encourage wonder and whimsy, and give your little ones the chance to practice the art of being a child. We have worked with natural, tactile materials that intrigue the touch of little hands, as well as shapes, patterns and embroidery that can spark conversations about love, nature and humanity. We hope that they will bring hours of joy, comfort and exploration to your family.

ferm LIVING

Settle Table Cloth House

With the Settle Table Cloth House, you can easily turn the family dining table into a playful fort for your little ones, where they can hide away with their favourite books and toys or engage in creative, fanciful play - alone or in the company of their imagination. Made from undyed, post-industrial cotton, the Settle Table Cloth House has a roll-up door and three windows, allowing your child to peek out from their cosy haven whenever they wish.

Settle Bed Canopy

With the Settle Bed Canopy, your little one will have their very own private sanctuary where they can feel safe and snug, allowing them to hide away with their favourite books and toys in the company of their imagination. Made from undyed, organic cotton, the bed canopy is suspended from a wooden bar that attaches to the ceiling with a decorative leather string. With two little windows complete with roll-up curtains, your child can peek out from their cosy haven whenever they wish.

Little Architect Blocks

The Little Architect Blocks will provide the youngest inhabitants of your home with endless fun. Made from solid wood stained in curated colours, the blocks are inspired by the architecture you will see while strolling through our hometown of Copenhagen. With artistic interpretations of roofs, houses, windows and a bridge, your little one will be able to play with shapes, texture and composition while building fanciful towers and structures - they can even start practicing their craft by tracing the shapes onto paper.

Our View on Sustainability

At ferm LIVING, we want people to feel confident in the choices they make as they create space to live more sustainably. As a design company, we see it as our responsibility to lead the way – to inspire change and help all of us make responsible choices.

To achieve this, we have set an ambitious Responsibility strategy and defined nine 2030 commitments across Our Planet, Our Society and Our Family. We embrace our responsibility holistically and weave a mindset of sustainability into every corner of our business.

The ambition is to work for a better tomorrow, so you can feel good about your choices today.

Find out more at fermliving.com

CERTIFICATION & TESTING

We work with certifications and testing to ensure working conditions in our supply chain are safe and fair, and that our products are responsibly produced and of high quality.

Where relevant, products are tested before they become part of our collection. This includes lighting, furniture, outdoor pieces, kitchen and children’s products. In order to adhere to REACH regulations, accredited testing agencies, such as the Danish Technological Institute, conduct tests on our products through processes defined by law.

We currently work with the following certifications:

GOTS – The Global Organic Textile Standard. Recognised as the world’s leading processing standard for textiles made from organic fibres. It defines high-level environmental and social criteria along the entire organic textiles supply chain.

OCS – The Organic Content Standard. Verifies the presence and amount of organic material in a final product, tracking the flow of a raw material from its source to the final product.

FSC™ – The Forest Stewardship Council. An international, non-profit labelling scheme for wood and paper. In FSC™ forestry, no more wood is felled than the forest can naturally reproduce. At the same time, FSC™ is a guarantee that people who work within the entire supply chain are treated legally and ethically, and that animals and plant life are protected. Look for FSC™-certified products in the catalogue.

NORDIC SWAN ECOLABEL – A Nordic Swan Ecolabel candle is a candle meeting specific criteria for environmental performance as well as health aspects, quality and safety.

BSCI – Business Social Compliance Initiative. An industry driven initiative by AMFORI, which aims to monitor and assess workplace standards across global supply chains. An AMFORI BSCI audit helps us to ensure that all of our key suppliers treat their workers legally and ethically.

UN Global Compact – As a participant of the UN Global Compact, we commit to investing in sustainable and responsible practices. This year, we have published our first-ever Responsibility Report on their platform for 2021-2022, which is an annual report that details our progress on working with responsibility and a sustainable mindset. Our work focuses on UN Sustainable Development Goals 8, 12 and 17. Our Code of Conduct is based on UN Global Compacts Ten Guiding Principles. It Our Code of Conduct defines the ethical principles of our business and has been signed by all our partners and suppliers. The purpose of the principles set out in our Code of Conduct is to protect workers’ health, ensure their safety during production and ensure an ethical and fair partnership for everybody. Our Code of Conduct is available on fermliving.com

RESPONSIBLE – Today we use RESPONSIBLE as a tag on our products to signify that a product is either FSC™, GOTS- or OCS/ Organic Blended-certified or produced in a recycled material, such as recycled glass, recycled aluminum, recycled paper pulp or PET-yarn made from post-consumer plastic bottles. In the future, our definition of RESPONSIBLE will expand due to committed work to our Responsible Criteria being implemented even more in the early design phase.

We continuously work towards having more responsible products in our collection. Read more about our work with responsibility fermliving.com/pages/sustainability
