## AIR CHANNEL TECHNOLOGY™

Integrated Air Channels™ allow your chair to breathe by letting air circulate through the chair - helping you stay comfortably seated for hours.

The Air Channels™ have been designed to keep you comfortable, no matter what season it is.

The integrated Air Channels™ will transport air into the back of the chair, keeping it ventilated and the perfect temperature for you - keeping you warm in the winter and cool in the summer.

In the leather chairs, you will find perforated leather, to ensure the innovative Air Channel™ breathability.

A read, a drink, a break, a daydream; we all need somewhere to savour the moment. FLEXLUX® is designed to be that place. Treat yourself to some me-time every day. Sit back, relax and experience the pleasure of being.

## SEDUCE

Soft & feminine curves.

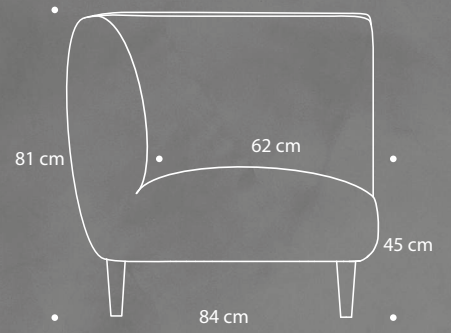

The back seat adapts to your body's every move.

Sophisticated moulded aluminium legs.
