REFLECTIONS ON WINE

HOLMEGAARD WAS FOUNDED BY A WOMAN AHEAD OF HER TIME

Holmegaard's glassworks was founded in 1825 by Countess Henriette Danneskiold-Samsøe. As one of the first women to start her own business, she was ahead of her time.

Through the years, Holmegaard's glassworks has shaped everything from bottles and vases to glasses and much more. But our ambition has always been to create designs that most could afford.

While techniques have changed over time, Holmegaard is still deeply founded on a tradition of good craftsmanship. Whether it is mouth or machine blown glasses, Holmegaard always represents high quality and good design.
