# The Buzz

Home is more than just a place to live. It's where life unfolds. *Unfiltered and authentic.* A buzzing hive of activity that reflects who we are and what matters most to us. Whether it's sketches for a new project scattered across the dining room table or compact furniture that make room for extra guests. It's a dynamic space that grows and changes, just as we do.

Home is a place for happiness, sorrows and everything in between. It's where we live, laugh and let our guards down. It's where real life happens. Messy and un-posed. It's the sounds echoing through the halls as we rush to get ready for the day ahead. The hum of conversation over breakfast, the clatter of dishes being loaded into the dishwasher after dinner, and the and the click of knitting needles as we work on our latest project. It's the buzz of everyday life – *the notes that turn a house into a home.*

Welcome to The Buzz – a collection that lets our *creativity* turn ordinary spaces into extraordinary moments.

## A Journey Into Art

Meet Julie Wittrup Pladsbjerg. A Danish artist transforming knitting and ceramics into vibrant works of art. In her studio in Aalborg, surrounded by skeins of yarn, sketches and blocks of clay, she spends her days turning everyday experiences into playful combinations of stitches, textures, and words – a creative process deeply connected to the atmosphere and aesthetics of her surroundings.

JULIE WITTRUP PLADSBJERG

“SOMEHOW, MY HANDS AND  
THOUGHTS HAVE A LIFE OF THEIR OWN,  
SHAPING EVERY STITCH AND CLAY  
CREATION. IT JUST HAPPENS.”

Julie Wittrup Pladsbjerg's path into the world of knitted art began nine years ago when she first picked up knitting needles to create clothes for her newborn child. What started as a cute hobby, however, soon grew into a passion, evolving from crafting tiny garments to expressive works of art.

Her first art piece, created in January 2023, emerged from a challenging period in her life. "Just before creating my first piece, I had gone through a really tough period. I had a lot of emotions bottled up and needed an outlet. That's when I decided to channel my feelings into my knitting," she shares. # Around the table

Everything happens around the table. It's where life unfolds. *Unfiltered* and *vibrant*. It's where we enjoy breakfast and plan our day. A workspace for remote meetings and after-school homework. A place for family dinners, *heart-to-hearts* and laughter.

# SMILE TOMORROW

We recognise that everything we do as a design company impacts the environment.

That is why we constantly try to find new and better ways of designing and developing our products, continuously focusing on approved and responsible materials, placing high demands on ourselves and our partners in terms of fair and healthy working conditions and supporting our local communities.

We know that  
we are not saving  
the world, but try  
to do better

WE CALL THIS HÜBSCH CARE,  
WELL, BECAUSE WE DO.
