Design profile

One Room living means casual living - cozy, relaxed functional elegance, designed for the wear and tear of everyday life.

The One Room Living concept has been designed to provide you with a series of modular elements that enables you to create the design and comfort that reflects your personal taste and preferences.

30 years of Danish
handmade quality comfort

The core of the One Room Living is an undivided and easy bendable mattress, which ensures a sofa bed with a comfortable and supportive surface for relaxing, sleeping and sitting.

Through the past 30 years, we have continually developed and refined our mattresses in order to improve its comfort and durability.

Every single mattress is handmade with great care and attention to quality and details at our factory in Denmark.

Layers of comfort

All our sofa bed frames are equipped with beech-wood slats. The combination of frame and a mattress fixed to the frame provides a dynamic and supportive comfort for sitting and sleeping.

Add an Inno topper to provide an even higher comfort during the night and protect the cover at the same time.

Durability & environmental care

A One Room Living sofa bed is designed to last forever.

The conceptual design idea of One Room Living not only allows you to customize your sofa, the knock down design of the frames also ensures that all parts of the sofa bed can be maintained as years go by. Worn out frame parts can be replaced, mattresses and covers can be renewed.

We take great pride in our high quality standards and durability and provide a **lifetime warranty** on both slats and gears on all models. Our Customer Service will be happy to help you.

Should you decide to part from your One Room Living sofa bed, disassembly and recycling of all parts is possible.
