Here at Calligaris, we believe that furniture should be both practical and beautiful. We believe that design should be combined with engineering to create ingenious solutions. Even after almost 100 years, we still believe in experimenting with design and materials. We just want to create the perfect item for your home. And we know that every home is different so we've got plenty of products to choose from. That includes seats, tables, beds, lighting, storage and accessories too. At Calligaris, we believe in customisation. And we believe in quality. In fact, all our products are strictly certified. We believe in convenience too, which is why you'll find us all over the world. But most of all, we believe in the importance of making a home. A home for living, dining, sleeping, lighting, working and playing.

We choose the best materials, which offer the perfect comfort and durability.

We want the materials we use for our products to be safe and resistant not only beautiful. For this reason we select the best wood, we choose fabrics and leathers that will last a long time and we work the **metal** bending it to our desire.

Fabrics are pleasant to the touch, stain resistant and colorfast.

The exclusive Teflon™ fabric protector stain-proof treatment protects fabrics from dry, wet and oily stains.

The silver ions Silver Protection treatment has antimicrobial, antibacterial and antifungal properties.

We protect the solid and veneered **wood** with special painting cycles, which enhance its natural beauty and offer an efficient barrier against stains.

Calligaris has been FSC® certified for many years.

FSC® is the trademark that identifies products containing wood coming from correctly and responsibly managed forests following rigorous environmental, social and economic standards.

Calligaris S.p.A. is among the “top” companies that have been awarded by FSC® Italy for its sustainability in the wood-furniture industry.

Calligaris **ceramics** are obtained coupling a porcelain stoneware slab with a tempered float glass.

The result is a surface with exceptional scratch, shock, stain, thermal and chemical resistance features. It is easy to clean and absolutely hygienic: does not absorb liquids and does not release harmful substances.

Plastic is a key raw material to create our collection.

For each product version we choose the ideal formulation. Polypropylene (strong and durable, good resistance to chemical agents, shocks, abrasion and weather) is perfect for solid colors, while polycarbonate offers smooth and glossy surfaces and a high transparency and gloss.

We work many different materials to offer a wide and diverse collection where it is possible to recognize one' style and choose one's favourite products.

With the **Made to Order** program we want to offer a true tailor made service. For **74 chair and stool models** available in our catalogue, it is now possible to choose among **100 different leather or fabric upholsteries** to customize everyone's seats. On top of the 100 upholsteries, it is possible to request the customization of these models also with the customer's fabric! For a home made to measure those who live in it.

Discover the made to order program on our website **calligaris.com**
