The Alpaca Home & Scarf Collection 2020

## Welcome to Elvang Denmark

We create luxurious sustainable textiles in a timeless Danish design. Made from exquisite natural alpaca fibres.

Since the very beginning in 2003 we have placed responsible thinking in the centre of everything that we do. We are sustainable. We act ethically.

This has led to the highest possible level of recognition within the World Fair Trade Organization (WFTO) as guaranteed member.

The WFTO recognition and our participation in the UN Global Compact Initiative ensure the protection of people, animals and the environment.

Sustainability is the goal. A goal that can only be achieved by people taking responsibility. And that is what we do.

We are sustainable. We act ethically. And we have since 2003.

Because it makes sense.

Tina & Lasse Elvang

A photograph of three alpacas in a high-altitude, mountainous landscape. The central alpaca is standing and looking towards the camera, wearing a red collar. To its left, another alpaca is grazing. To its right, a third alpaca is also grazing. The background features rolling hills and mountains under a clear blue sky.

## Say hi to the alpacas

– perhaps the greenest animal on the planet!

For thousands of years the alpacas have been appreciated for their amazing wool, which today is considered one of the most luxurious fibres.

Their wool has made the alpaca known and loved all over the world. And it is not without reason. The alpaca fibres have a number of qualities that are quite unique compared to other natural fibres. They are soft, durable, insulating and hypo-allergenic. And in addition, pilling is at an absolute minimum.

The alpacas grace the Peruvian mountains in a way that do less damage to the environment. Making the animal itself and its wool environmentally friendly.

A minimum of 80% of the wool that we use is recycled.

This is sustainability at its best.

Made to last.  
A minimum of 80% of the wool  
that we use is recycled.
