Celebrating timeless design

Welcome to the Stelton 2020 catalogue, which celebrates our new designs and remembers some iconic classics. What they all have in common is their longevity. This comes from their pure lines, attention to detail and quality. We believe in creating a synthesis of form and function, embodying innovative ideas, design and materials. Built on our close collaboration with international architects and designers, creative, clever design is Stelton's DNA.

Our ambition is to create timeless design that makes everyday life more beautiful and captures the hearts of design lovers.

A Stelton state of mind.

Peter Holmblad is a key figure in Stelton's history. Between 1963 and 2004, he transformed Stelton from a production company into a respected design brand. He is also a skilled designer who created the well-known Original watering can and the Original series of breakfast table and bar utensils.

Always bring your favourite drink in this light stainless steel flask, and you will never need to buy single-use bottles again!

Accessories are portable, fashionable, functional and easy to take with you.

Companion is an exclusive series of accessories for him or her in a timeless and stylish design. Danish designer Søren Refsgaard has created the sporty and practical series.

Foster

These refined designs by British architect Norman Foster will make your bar or table stand out elegantly.

Norman Foster is Executive Chairman and Founder of Foster + Partners, one of the most influential architectural design firms shaping cities across the world, known for projects such as Reichstag: New German Parliament, The Great Court at the British Museum and the Millau Viaduct.

Enjoy simple sculptural form and soft geometry in this exceptionally crafted range. Each object is a response to a specific function while embodying a shared language.

“There is wonderful ambiguity in the power of a curve or a line, whether it is defining a building, a bridge, a skyline, or a vessel. They’re all in a way part of the same family.”

Norman Foster.

Cylinda-line

If you appreciate design history and lifelong elegance, Cylinda-line is a series of timeless objects to keep and cherish.

Whether you prefer your drinks shaken or stirred, the classic barware series by Arne Jacobsen is a perfect tool. Thrill your guests with your creations or enjoy a chilled champagne in good company when it is time to celebrate.

Arne Jacobsen designed Cylinda-line in 1967 as a complete collection in perfect harmony. His work was inspired by the Bauhaus movement and he played an important role in Danish modernism. He was a master of details and his persistence in the development process resulted in a unique set of tableware, in steel with a prominent Bakelite handle.

Collar

For your favourite cocktails.

If you are more of a mixologist, the Collar bar series is unconventional, modern, and perfect for your cocktail party. With its sleek black silhouette and brass details, Collar has character in abundance. Stock up on ice, turn up the music and let the party begin!

Debiassi and Sandri founded their own design studio in 2010. Based in Bolzano and Verona they work within various fields of design, ranging from objects to spaces.

The Norman Foster Collection

From wine carafes to espresso cups, this elegant tableware by Norman Foster is conceived for a wide range of settings.

Cylinda-line

Untouched by the passing of time. The minimalistic design by Arne Jacobsen is still synonymous with sophistication.

Collar

The best of two worlds – Italian taste with a Scandinavian touch. For coffee connoisseurs and home baristas, the Collar series is a perfect choice.

Stockholm

Bring nature into your home.

Let the natural tones of the Stockholm collection add a distinctive finish to your home decoration.

Bernadotte & Kylberg established their design agency in 2012. Their collections reflect the scenery and the colours of the nature they cherish, which can be both tranquil and dramatic.

The eloquent graphics and soft organic shapes of the Stockholm bowls and vases are inspired by the ever changing scenery of the Baltic Sea and Stockholm Archipelago.

EM77

Iconic design for simple living.

Erik Magnussen has created many timeless designs for Stelton, including the popular EM77 vacuum jug, the spine of the brand. This iconic design merges perfect form with perfect functionality.

Pilastro glasses by Francis Cayouette let you enjoy the colours of your hot and cold drinks.

A family feeling.
Some designs are
like family. They
belong and are
a natural part of
everyday life.

This iconic vacuum jug, designed
by Erik Magnussen in 1977, still looks
good on any table, elegantly
complementing your tableware.
It started with an innovative tilting
lid. Now the design conceals new
functionalities: a French press, a
press tea maker and an electric
kettle. Enjoy distinguished design
and a harmonious look in your
kitchen and on your table.

A perfect match

Keep your bread deliciously fresh in this original bread bag as you relish a long breakfast or lunch. The bag folds easily to the perfect size and makes your table look cosy and inviting.

Colour your day!

The collection's colours change with the fashion to suit your interior, but the EM77 remains a perfect combination of form and functionality.

Klaus Rath trained as an industrial designer at the School of Architecture in Århus, Denmark. He has designed the bread bag and other award-winning products for Stelton.

Emma

A new design classic for modern living.

Introduce that Scandinavian hygge (cozy) atmosphere into your home with these Emma jugs and tableware.

Mix and match with new and old favourites. With a range of tone-in-tone colours, you can express your personal style.

Light hues for a pleasant start to the day.

Treat yourself, your friends and family to breakfast or brunch with Emma.

HolmbäckNordentoft are the designers behind this harmonious combination of warm wood, porcelain, and lacquered steel with an informal mix of colours. Sebastian Holmbäck and Ulrik Nordentoft studied at the Danish Design School. They went on to design the Emma series together. A shared commitment to aesthetics forms the basis of all their work.

Emma will complement any table.

Theo

Take your time. Enjoy a moment of calm with your favourite tea or coffee.

Canadian designer Francis Cayouette was trained in Montreal and Paris, and founded Unit 10 design in Copenhagen in 1999.

Let the Theo collection stimulate your senses. Combining matt stoneware with glaze and bamboo details, the Theo range's natural look will bring Scandinavian simplicity and elegance to your home.

Hoop

The Hoop collection's classic design adds sophistication to your home.

The tealight holder creates a calming ambience alone or in pairs, inviting you to enjoy the dancing flames.

Your salad will be beautifully presented in the large Hoop bowl, with the wooden salad servers underlining the style perfectly.

UNIT 10 is a Scandinavian design consultancy. Founded in 1999 by Anne Marie Raaschou-Nielsen and Francis Cayouette, their studio lies in the centre of Copenhagen. The duo's interest in emotional and functional design translates into a range of furniture, interiors, and other products.

Pleat

Season your food with style.

Inspired by the simplicity and visual strength of cylindrical geometries, designers Böttcher & Kayser have created a modern interpretation of the classic salt jar and pepper mill, dressed in matt black and white. The fine ridges also offer a unique, highly decorative element which will complement your dinnerware.

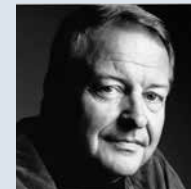

Böttcher & Kayser work out of their Berlin-based studio, founded in 2007. Childhood friends, these designers have realised their dream of working together, resulting in numerous prize-winning projects.

Original

Always ready to serve you.

Must-have tools for any home – these classic cheese cutters and bar set in stainless steel.

Peter Holmblad is a key figure in Stelton's history. He designed the well-known Original watering can and the Original series of breakfast table and bar utensils.

Hurricane

Enjoy those summer nights.

Maria Berntsen has worked as an industrial designer since 1992 in her own studio in Copenhagen. She has an intuitive feeling for the nature of the material and the sensuousness of the form.

Create a special ambiance outdoors or indoors with these beautiful Hurricanes by Maria Berntsen and these distinctive ship's lamps by Erik Magnussen. Enjoy the lamps during the long summer, then take them inside when winter comes. Their discreet design means they will fit wherever you place them, year after year.

Erik Magnussen has created many timeless designs for Stelton, including the popular EM77 vacuum jug, EM ship's lamps and the EM cutlery.

EM ship's lamps

A design classic.

Sixtus

Elegant tools for
grill experts.

High-quality ingredients call for careful handling. Sixtus is the perfect set for preparing and serving grilled meat and vegetables, bringing together grill utensils and a large cutting board. Sixtus will satisfy any grill enthusiast. Its sleek, classic design will be a pleasure to the eye at any table, whenever and wherever it is used.

Søren Refsgaard graduated from Design Seminariet in Højer, Denmark, in 2003. Later the same year, he established his own design studio in Copenhagen. His work, is deeply influenced by the Danish design tradition.

Stelton's Norstaal is a range of steel cutlery for the dining table. Sophisticated cutlery and serving utensils make the dining experience even more elegant and pleasurable.
