

KAMYKI

Material
inox

6pcs a set

Kamyki is a series of wall hangers or decoration in unique but repeatable shapes. Kamyki are made of stainless steel polished to high gloss which gives them a very adorable look when mounted together to the wall to create a special pattern or design. They are often used to

decorate the reception entrances, halls or bare and minimalistically structured walls inside or outside of the building. They have different diameters from 7 to 20 cm which can be easily adjusted according to the customer's needs.
